

Importance of Pollinators

By Emma Miller

Why Are Honey Bees Important?

- Honey bees pollinate $\frac{1}{3}$ of our food.
- Honey Bees make beeswax!
- Honey Bees make honey!

How Can You Protect the Bees?

- Be gentle when you see a bee.
- Plant flowers in your garden for bees.
- Put water outside in a shallow bowl for the bees to drink from.
- Remember that bees do *not* want to sting you.
